The Old Fashioned

The Old Fashioned Cocktail: A potent mix of spirit, water, sugar, and bitters.

"The first use of the name 'Old Fashioned' for a bourbon whiskey cocktail was said to have been at the Pendennis Club, a gentleman's club founded in 1881 in Louisville, Kentucky. The recipe was said to have been invented by a bartender at the club in honor of James E. Pepper, a prominent bourbon distiller, who brought it to the Waldorf-Astoria Hotel bar in New York City."

-Albert Stevens Crockett (1935) in

“Whisky”

Most of the world including Scotland, Japan, Canada, Australia, England, Finland, Germany, and India.

“Whiskey”

U.S. and Ireland.

The term ‘whisky’ derives from the Gaelic usquebaugh – itself from the Scottish Gaelic uisge beatha, or the Irish Gaelic spelling uisce beatha. Uisce comes from the Old Irish for ‘water’ and beatha from bethad, meaning ‘of life’. With this in mind, whisky is etymologically linked with a great number of spirits, all of which refer to the origins of the spirit – the quest for the elixir of life.

The spelling of whisky, or whiskey, differs geographically. As a rule, American and Irish prefer ‘whiskey’ and the Scots, Canadians and the rest of the world’s single malt makers prefer ‘whisky’. This originated during the 19th century. For in around 1870, Scotch whisky was of very low quality, much of it being distilled poorly in Coffey stills. For exportation to America, the Irish distillers wanted to differentiate their product from the poorer Scotch whisky, thus they added the ‘e’ to mark the crucial distinction. Today, Scotch whisky has become one of the world’s greatest spirits, but the spelling still differs.
